CLAREMONT. THE VOTE ON THE SUBSCRIPTION TO THE AT-

MAY 26, 1883.
The returns from the Surry county elec-on show a closely-contested affair as re-ards the question of voting a subscrip-on of \$24,000 towards the Atlantic and Danville railway. The railway company eccived a majority of five votes, but failed received a majority of five votes, but failed to secure the three fifths necessary. Nothing daunted, the railway company will continue their work, and push the road rapidly forward to completion. Claremont will be the terminus of the new road, and Petersburg must needs look elsewhere or content herself with a branch road.

Hannah Bishop, aged seven years, was shot and dangerously wounded Friday at Glassboro', N. J., by her uncle, John Press, fourteen years old. The children were playing, when the lad pointed an old rifte at the girl, and, not knowing it was loaded, he pulled the trigger, and the little girl was shot in the face. The physicians think she cannot recover.

Professor Nordenskjold, accompanied by other scientists, has sailed on board the Aretic exploring vessel Sophia for Greenland. The Professor's voyages have hitherto been decidedly more successful and productive of scientific, if not practical, results than those of other explorers. What the exact problem is that the Sophia has started out to solve is not stated.

A Tombstone (A. THE BOTHERED ARMY SURGEONS.—It was in war-times. The quartermaster of the Fourth New York Artiflery was nearly dead with dysentery. The surgeons did their best for him, but at last gave him up. Lieutenant Bemts, who is now a well-known merchant in Oneida, N. Y., ventured to dose him with Perry Davis's Pain-Killer. In a few days the quartermaster's sufferings were over and he was on duty as before.
